Using Starfish can Make a Difference in Student Success

Student Success Network:
Reach for the Stars

Attendance Reporting

You will receive an email notification approximately 2 weeks into the semester when the attendance survey is available in Starfish. Reporting attendance helps students **maintain** their **Financial Aid.**

Midterm Grades

Midterm grades are to be recorded in Starfish. You will receive an email notification when it is time to enter **midterm grades**. Once grades are submitted you cannot go back to make changes.

Kudos

Acknowledge when a student is doing well in your course throughout the semester. Giving **Kudos** helps **motivate** the student and keeps the advisor informed.

Flags

Raise **Flags** if a student is **struggling** in your course. This lets the advisor and other appropriate support services know that they need to step in to get the student back on track.

Services

Students have access to a number of **support services.** Students can contact **Tutoring, Testing, Advising, Disability and Veterans Services,** and more!
