Using the Search Function within Montco Connect

There are links to many resources within Montco Connect. If you should not be able to find one through the navigation, the Search bar at the top is a convenient way of finding a resource.

1. If you are looking for a specific tool, simply type the item you are looking for in the search bar. Clicking on the Tool in the search results will now take you directly to this item.

2. If there are multiple results, you can click 'View all Results' to access every item in Connect that is related to our Search Term.
