Opt Out of State Reporting

Each year the State of Pennsylvania's Department of Education requires all public community colleges to provide to them data on students enrolled at all 14 community colleges in the Commonwealth. While this is a requirement of the College to report out student data, the State of Pennsylvania allows individual students to "opt-out" or not have your information shared with the State. There is no penalty for not having your information sent to the state, nor are there rewards for having your information sent. Students who wish to opt out may do so annually they are enrolled.

Please click the link below to see the current dates of opting out.
