---

## Faculty and Students- Create a New Wiki Page in Blackboard

You can create multiple pages within a wiki. For example, if you are creating a study guide, you could create a wiki page for each chapter or unit. If you are developing a wiki as a class project, you may wish to create separate pages based on the different parts of your project.

A dark grey rectangular button with the text "Create Wiki Page" in white, bold, sans-serif font.

To create a wiki page, click the button.
